

## Spring Conference Animal Nutrition 2024

**The animal nutrition spring conference is back - with a new look, new partners, but just as good as ever!**

This year's theme: *The Role of animal nutrition in sustainability goals for Switzerland and beyond.*

You will gain exclusive insights into the latest research findings on animal nutrition given by renowned experts at these fields, who will focus on the contribution that animal nutrition can make to the implementation of current agricultural policy goals.

Experience inspiring presentations and an interactive poster session. But above all take the opportunity to exchange ideas with like-minded people.

*Do you have interesting research results that fit the theme of the conference?* Then send us your abstract, be part of the poster session and save yourself the conference fee.

### Program preview
